Impacts of the social model

In Taiwan I was a person with severe disabilities, but I went to Japan and the “disabilities” disappeared, and now I am free!

Taipei City New Vitality Independent Living Association

1. More than half of our decision makers are persons with disabilities.
2. Cross-disability
3. Personal assistance service
Consultation service on independent living
4. Peer support
5. Accessibility check
6. Advocacy and the protection of rights

Networking with human rights organizations, women, LGBT, indigenous people, homeless people, lawyers organizations etc.

In 2007, we established the first independent living center in Taiwan.

In 2011, the Personal Assistance Service and the Peer Support Service became a part of the national system.

In 2014, the Workplace Personal Assistance Service also became a part of the national system!

In 2009, sponsored by the Community Chest, a pilot project of the independent living was launched.

In 2018, the national government made a budget for the operation of independent living centers.
